

## Industry Track

### The PerCom Industry Track

IEEE PerCom Industry Track is in its 6th year. The accepted papers will be published in the PerCom Workshops and other Affiliated Events proceedings. This track will be an opportunity for people associated with industry and academia to present their novel ideas while attracting funding and/or further expanding collaborations. These papers will be presented as part of the main conference program, where the content focuses on research that has direct industry impact and potential for industry uptake. For this track, only *high quality papers with clear industrial association* will be solicited. There will be a Best Industry Track Paper Award to acknowledge and encourage excellence in collaborative industry research.

An important criteria for papers to be submitted to the Industry Track is *clear industrial association, either in the form of extensive evaluation of research results in industrial use cases or active participation of industry representatives as co-authors*. Having this condition in mind, contributions related to ongoing or finished, but previously unpublished research papers are welcomed. Submissions from a broad spectrum of research fields with common interest in pervasive computing and communications are expected.

### Submission Guidelines

- Paper submission has to be done via **EDAS** in the **IEEE format** and should be no more than **6 pages in length**. Manuscripts must be formatted in accordance with the IEEE Computer Society author guidelines. The IEEE LaTeX and Microsoft Word templates, as well as related information, can be found at the IEEE Computer Society website(<https://www.ieee.org/conferences/publishing/templates.html>).
- Only electronic submissions in PDF format will be considered. The submission link is <https://edas.info/N31003>
- Submitted papers will undergo a rigorous "single-blind" review process.
- At least one author of each accepted paper is required to register and present their contribution at the conference

### Important dates

- Paper submission deadline: ~~3 October, 2023~~ 17 Oct 2023 AoE (extended)
- Notification of acceptance: January 5, 2024
- Early registration deadline: January 15, 2024
- Camera ready deadline: January 30, 2024
- Conference Dates: 11 – 15 March 2024

For more important dates see [here](#) .

### Industry Track Chairs

Paul Castro, IBM Watson research, USA

Abhishek Mukherji, Accenture Inc., USA

### **Program Committee Members**

- Sanjay Arora, Red Hat Research, USA
- Jagmohan Chauhan, University of Southampton, UK
- Avik Ghose, Tata Consulting Services
- Ali Kanso, Microsoft, USA
- Jinwon Lee, Amazon Web Services, USA
- Swadhin Pradhan, Cisco, USA
- Christian Prehofer, DENSO Automotive, Germany

(more TBD)
